

IFOAM North America Elects 1st Board of Directors

On September 22, 2016, after over 18 months of discussions and planning, IFOAM North America held an inaugural General Assembly to establish itself as a self-organized regional body within the global umbrella of IFOAM – Organics International.

An election of the 1st Board of Directors of this new body took place from October 18-28. Thanks and appreciation are due to all candidates who strived to serve on the Board. Congratulations are further deserved by the newly elected Board, who are:

Elizabeth Henderson
Jeff Moyer
Sarah Brown
Bob Quinn
Leslie Zuck
Ryan Zinn
Dag Falck
Brian Baker
Lisa Pierce

The Steering Committee¹ that has carried the process until now is able to confidently put the future of IFOAM North America into the hands of the new Board of Directors. Onward we go!

With gratitude,

David Gould
IFOAM – Organics International
North American Representative &
Steering Committee member
30 October, 2016
