“Adopt the Organic 3.0 and be part of the holistic, challenging, sustainable and updated organic future”

- **The International Federation of Organic Agriculture Movements (IFOAM - Organics International)** is the worldwide umbrella organization for the organic agriculture movement, which represents close to 800 affiliates in 117 countries. Its mission is to, "Lead, unite and assist the organic movement in its full diversity." And its vision is the "worldwide adoption of ecologically, socially and economically sound systems, based on the Principles of Organic Agriculture: Health, Ecology, Fairness and Care". Among its wide range of activities, the federation maintains an organic farming standard, and an organic accreditation and certification service
- IFOAM AgriBioMediterraneo is an official Regional Group of the International Federation of Organic Agricultural Movement. IFOAM-ABM gathered members from three continents (Africa, Asia, Europe) and 16 Mediterranean countries. IFOAM AgriBioMediterraneo coordinates the activities of IFOAM-member organizations in the Mediterranean Region. It promotes, develops and disseminates information, knowledge and expertise related to Mediterranean organic agriculture and food production. IFOAM-ABM improves local development, enforces harmonization actions and goals between different countries and institutions and promotes the cooperation among various interest groups involved in the organic value chain.
- **IFOAM OI compiled the Organic 3.0 or defining the organic vision and the new phase of organic development** [<http://www.ifoam.bio/en/organic-policy-guarantee/organic-30-next-phase-organic-development>]
